# MTB BIKES

## SR

MTB bicikli su namenjeni za vožnju po neravnom terenu (off road) i veoma su prihvaćeni kod mlađe populacije. Pružaju velike mogućnosti za takmičarsku vožnju po neuređenim terenima i uživanje u laganim rekreativnim turama.

## EN

MTB bicycles are designed for off-road driving and are widely accepted by the younger population. It gives great opportunities for competitive rides on unregulated terrain, as well as for enjoying light recreational tours.

# FULL SUSPENSION BIKES

## SR

FULL SUSPENSION bicikli sa potpunom suspenzijom su jedinstveni po tome što imaju suspenziju na prednjem i zadnjem delu rama bicikla. Namenjeni su onima koji traže uzbuđenje i žele da osele nalet adrenalina prilikom vožnje po neuređenim terenima.

## EN

FULL SUSPENSION mountain bikes are unique in that they have a suspension on the front and rear of the bicycle frame. They are intended for those who are looking for excitement and want to experience adrenaline rush while driving on unregulated terrain.

# TOURING / TREKKING BIKES

## SR

TOURING/TREKKING bicikli su namenjeni za rekreativnu vožnju po uređenim stazama i izvan naseljenih mesta. Touring modeli od opreme poseduju prtljažnike, blatobrane, lancobran i osvetljenje, dok Trekking modeli ne poseduju navedene delove.

## EN

TOURING/TREKKING bicycles are designed for recreational ride on well-maintained trails and outside of populated areas. Touring models of equipment have luggage racks, mudguards, fenders and lighting, while the Trekking models does not have these parts.

# E-BIKES

## SR

E-BIKE su bicikli sa integrisanim električnim motorom koji se može koristiti za asistenciju pri vožnji. E-bike dozvoljava vozaču da podesi stepen "pomoći" električnog sistema kod okretanja pedala, što omogućava korisniku da istom količinom napora pređe dužu relaciju. Dužina pređenog puta zavisi od različitih faktora: kvaliteta podloge, uticaja vetra, nagiba terena i brzine vožnje. Vožnja električnog bicikla će pružiti novo iskustvo svakome ko ga isproba, bilo da se radi o običnoj gradskoj vožnji ili izletu u prirodi.

## EN

E-BIKE are bikes with an integrated electric motor that can be used for driving assistance. The E-bike allows the driver to adjust the degree of "help" of the electric system when turning the pedal, which allows the user to cross the same distance with the same amount of effort. The length of the journey is dependent on different factors: the quality of the road, wind, pitch and driving speed. A ride on an electric bike will provide a new experience to anyone who tastes it, whether it's an ordinary city trip or a trip to nature.

# FOLDING BIKE

## SR

FOLDING bicikli su namenjeni za kratke relacije uređenim stazama. Odlikuje ih mogućnost brzog sklapanja u formu pogodnu za transport, kako motornim vozilom, tako i ručno. Voze se po asfaltnim putevima i uređenim biciklističkim stazama.

## EN

FOLDING bicycle is designed to fold into a compact form, facilitating transport and storage. When folded, the bikes can be more easily carried into buildings, on public transportation (facilitating mixed-mode commuting and bicycle commuting), and more easily stored in compact living quarters or aboard a car, boat or plane.

# FREERIDE BIKES

## SR

FREERIDE bicikli su namenjeni za entuzijaste kojima BMX bicikl nije dovoljan, najčešće se koriste za vožnju po uređenim zemljanim stazama i skejt parkovima.

## EN

FREERIDE bicycles are designed for enthusiasts who want more than BMX bikes, most often used for riding on maintained terrain and skate parks.

# BMX BIKES

## SR

BMX bicikli spadaju u kategoriju univerzalnih gradskih bicikala sa odličnim odnosom veličine rama i točka, tako da ih mogu voziti deca i odrasli. Pogodni su za vožnju na poligonima sa preprekama, kao i za izvođenje raznih trikova i akrobacija.

## EN

BMX bicycles belong to the category of universal city bikes with excellent frame-to-size ratio and wheelbase, so children and adults can ride them. They are suitable for driving on obstacles, as well as for performing various tricks and stunts.
